MEADOWSLEA
ANGUS & SHEEP GENETICS

Meadowslea Romneys

& Romney - Cross Rams

Romneys have been bred at Meadowslea since 1926, and for the last 26 years they have lambed totally unshepherded on our Berridale hill block. The resulting in-built survival sets our sheep apart. They have now evolved into tough, deep-bodied, strong-boned Romney sheep that deliver high performance in adverse conditions.

The Romney ewes are very fertile with great mothering ability. They also form the solid base of our exciting first cross ram breeding programme.

We can now offer greater genetic choices that are proven to deliver increased performance over a wide range of country.

Elite purebred Romneys

- Top 25% on SIL selected for sale
- From high fertility ewes rearing top lambs off tussock
- Easy care and great survival

kelso. Terminal Tough Hill Bred High Yielding Sire

SURVIVAL + GROWTH + YIELD = PROFIT

- Composite Terminal sire - originally bred using top sires from all major meat breeds, including a strong Texel influence. These were mated over a ewe flock run on tough hill country. Only the best performing of the surviving progeny were retained. We now have 600 of these tough, high performing ewes running on our hill.

- Tough and vigorous with outstanding lamb survival
- Meaty, early maturing lambs with explosive growth rates from all that hybrid vigour
- Unbeatable for getting lambs away off mothers even in the toughest country
- Clients getting outstanding results with any base breed!

Perendale x Romney (Romdale)

- Extra vigour and toughness from Perendale sire
- Constitution, conformation and bone from Romney stud ewes
- Suitable for tough country
- Clients love them!

1/4 Perendale x 1/4 Texel x 1/2 Romney

- Texel influence for meatier, high yielding lambs that finish early
- Bred by mating top Texel X Romneys over elite Romdale ewes
- Our most popular cross!

Texel x Romney

- Extra thickness and meat from the Texel sire
- Frame, structure and constitution from the Romney stud ewes
- Fast finishing, high yielding lambs

kelso. Maternal

- High fertility, high performance composite
- Lamb 170% unshepherded on our tussock blocks

kelso. x Romney (kelso. sire over stud Romney ewes)

- High performance and fertility from **kelso.** Maternal
- Conformation, survival from the Romney

Meadowslea Hill-bred Rams . High Survival . High Performance.
