NZ BREED TRAIT LEADERS FOR MATERNAL AND FERTILITY

TRAITS – WITH LONGEVITY TO 14 YRS OF AGE

These two legendary senior sires have had a profound impact on the Meadowslea herd. They have both been NZ Trait leaders for the important fertility and maternal traits of either short days to calving, short gestation length, or milk. You will find them featuring somewhere in the pedigrees of almost every bull in this catalogue, ensuring industry-leading fertility, maternal excellence, and incredible longevity.

MEADOWSLEA SPRING BULL SALE

Friday 3rd October 2025 1pm

**Online and On-Farm,
State Highway 8, 5km west of Fairlie
Online Bidding opens with
Video Release Sunday 28th Sept, 7pm**

Sale Format

The sale will be conducted as a Helmsman-style auction, meaning that all lots are for sale simultaneously. This is to allow for the participation of those in attendance, as well as those online. The sale will be hosted on our own yourbid platform and accessed through our website www.meadowslea.co.nz. Prior to the sale, all lots will be filmed and available for viewing up until sale day on the Meadowslea website.

Bulls are available for viewing in the paddock anytime – just call 027 229 9760 to arrange a time.

Registration for those in attendance will be at the on-farm office, where a copy of the conditions of sale will be posted.

Registration for those online will be through the Meadowslea website, where the conditions of sale will also be available.

Buyers will receive a buyer number as they register which will accompany each bid. Buyers registering online will receive a buyer number when they register for the sale which will automatically accompany each bid they place, whether they do so at home on their computer, or through their smart phone while in attendance. Those in attendance may also bid by writing on the supplied bidding cards and handing them in to the on-farm office staff. All live bids and all lots will be visible at all times, both online and on a big screen on-farm.

Online registration is available now and we encourage everyone to visit our website www.meadowslea.co.nz, to register, and then place practice bids on the demonstration lots on the auction page.

Online videos of each lot with accompanying commentary will be released both on our website and on facebook on Sunday Sept 28th at 7pm. This video will include footage of every bull in the

catalogue with comments and background information from the Meadowslea team and will be available for viewing right up until the conclusion of the sale.

Online bidding will be open from 7pm on Sunday Sept 29th until the conclusion of the sale.

On Oct 3rd, Sale Day, the on-farm registration and bidding will open at 11am. **Livestreaming with interactive viewing will commence at 12.30 pm** with a walk through of all the pens, with commentary from the vendors and genetic specialists. Requests to review particular bulls can be made through the web-site chat box or by telephone or text to the vendors or stock agents in attendance. This will continue throughout until the conclusion of the sale.

A live screen on the website will show all lots alongside their current prices and the buyer number of the bidder who holds that lot. On-farm attendees will be able to view on a big screen on site.

Bids will be displayed on a computer or smart phone screen in the following colours

Example:

\$2500 Displayed in **Red** denotes the Vendors reserve and indicates there has been no bid

\$3000 Displayed in **Blue** means an active bid has been received

\$3500 A new Bid has been Received within the last 2 minutes on this lot

\$3500 The holder of the leading bid will have the lot number highlighted in Green on their computer or their smart phone when logged in.

The sale will run until 2pm on Oct 3rd. After this time the sale will conclude once there has been a period of at least 2 minutes without any bid being received on any lot. If another bid is placed on any lot during the 2-minute period, then time is extended and bids can be received on all lots for a further 2 minutes. This process will be repeated until a clear 2 minutes passes without any bids on any lot at which time the sale will conclude.

Final Time will be called clearly by the commentary team who will use their discretion to ensure all bidders are satisfied.

All updates will be posted on our website, as will an up-to-date version of this document.

Rebate Purchasing Commission. 6% purchasing rebate commission will be paid to all nominated buying companies or independent agents introducing clients prior to the sale.

FOREWORD

Meadowslea Angus Stud was established in 1985 with the purchase of capital stock females from Turihaua Station, Gisborne.

The herd today comprises 550 cows run on tussock country west of Fairlie at an altitude of 1500 to 2500 feet. The cows are run entirely under commercial conditions with all heifers calving as 2-year-olds or they are culled. Strong emphasis is placed on cow fertility and ease of calving with any dry cows culled.

Selection criteria is for easy-fleshing, moderate-framed cattle with plenty of meat and adequate fat cover, that will shift and perform in the South Island hill country. Sires used are all NZ-bred, with real emphasis placed on structural soundness, longevity, and fat cover. Over the last 14 years our stud cows have grazed next door on “Berkley Downs” native tussock blocks, and this has further tested their hardiness and constitution.

Sale bulls have spent 120 days on winter feed. The yearlings have been on fodderbeet where they have gained over 1kg / day while the 2-year bulls cruised through the winter on kale. Both mobs were shifted onto grass in the second week of September.

In 2024 we again had a 98% conception rate across heifers and mixed aged cows. With very dry conditions we pulled the bulls out and preg tested a bit early thinking we might get a few extra empties processed, but that didn't happen! We believe it is the strong focus that we place on the maternal and fertility traits that is driving these outstanding results. Furthermore, the performance of our young R2-year heifers is leading the progress within the herd, and you will note that many of the bulls on offer are bred from these outstanding young cattle – either out of the 2-year heifers or bred by yearling bulls.

Strong maternal and fertility traits are the main driver of profitability in any beef herd, and they continue to be the major selection criteria in our breeding programme.

We always keep a selection of very good 2-year-old Angus bulls for this spring sale and this year is no exception, with some particularly meaty, easy-doing bulls on offer, many suited to heifer mating.

The yearlings include some of the second drop, of outstanding sons to be offered, by the \$81,000 Kincardine Rainstorme. R25. These are very exciting prospects and are all heifer mating specialists with genomically enhanced EBV's. Rainstorme has bred exceptionally well and his progeny have the potential to be game-changers for the beef cow herd in NZ. He has exceptional calving ease coupled with very strong early growth while maintaining an unmatched efficient moderate cow size that the industry requires for sustainable and profitable hill country beef production. We have catalogued some top yearlings from all our major bloodlines as well as a good selection of bulls for our Dairy clients.

Meadowslea is a closed herd. All appropriate steps are being taken to ensure biosecurity is maintained at all times for ourselves and our clients.

All bulls tested clear and vaccinated for BVD. Scrotal contents and prepuce palpated with no abnormalities found.

We wish you well with your purchases and as always stand behind them 100%.

Deferred payment option is available – feel free to contact the vendors to discuss.

Disclaimer:

The BREEDPLAN Estimated Breeding Values (EBVs) contained within this sale catalogue were compiled by the Agricultural Business Research Institute (ABRI) from the data supplied by breeders. Neither Angus NZ nor ABRI oversee or audit the collection of this data.

Structural Assessment

The two-year bulls have undergone independent structural assessment by Bill Austin using the Australasian Beef Class system.

Results will be published online at
www.meadowslea.co.nz

20th September 2025

On the 20th September 2025

I palpated the scrotal contents and prepuce of the bulls.

There were no abnormalities found.

The scrotal circumferences were measured and recorded.

Comments: We kick of the 2025 Spring offering with this outstanding son of R646 who has been breeding very well for us. U275 has huge volume and capacity, is terrifically wide across the loin, has a strong top and a deep hind quarter. He has a great coat, strong head and bone, and is an impressive bull in every way! This fellow was used over adult cows late in the mating season and did plenty of work, so we decided to hold him back for this sale. He has an incredible growth curve with strong growth following a very safe low birthweight, with good calving ease and short gestation. Massive scrotal EBV indicates early maturity and fertility, he has big fats and look at that IMF figure! This is a top bull - have a very close look!

Comments: Another very similar R646 son with the same length, depth and capacity. A top bull with the same strong head and jaw R646 consistently leaves. This is another bull who had a busy mating season, being used to follow up AI in the R2 age group. Dam was also the mother of T223 who has several sons in the yearling draft, and grand dam was the mother of retained sire J670. Strong growth, exceptional short days to calving, and good fats all contribute to a very impressive self-replacing index!

Comments: This is a very sound, well-made R818 son here who we used first choice over one of our own heifer mobs. He is very wide over the loin with strong foot and bone, clean shoulders, balance, and style. Sire R818 is the Meat Machine son purchased by Jade Park Angus in Australia. Dam M643 has bred a couple of other sale bulls already and will feature in our 2025 female sale as an R10yr. U522 has moderate birthweight, big scrotal size, and the strong fats R818 is renowned for.

Comments: Lovely moderate, deep, Tornado son to lead in this pen of thick, chunky bulls. Great coat, strong head and bone, and a meaty hindquarter. He has low birthweight with impressive fertility, strong fats, and a good index. He was used alongside T413 to mate a mob of yearling heifers last spring. These Tornado sons have such class and quality about them!

Comments: Another moderate, deep, well fleshed bull exceptional width across the top, a deep flank, and another strong hindquarter. N166 certainly leaves his stamp and sire of dam P674 is really breeding on for us. U439 was left on the hill at weaning and turned up when the cows came down before calving so he has done incredibly well just to be here! Exceptional maternal fertility – that days to calving figure is as good as you'll see in a 2yr bull – and massive muscle and fat contribute to an incredible index there!

FMG
Advice & Insurance

BULL-PROOF

YOUR ASSETS AGAINST RURAL THEFT.

Theft and burglaries occur more often than you might think, and the number of theft claims is increasing.

Over the last five years we have paid \$51 million in theft claims - including \$715k in fuel alone, that's doubled since 2020 and equates to over 385,000 litres of diesel.*

We have teamed up with NZ Police to create a Rural Crime Prevention Guide to help prevent theft and burglaries at your rural property – find out more at fmg.co.nz/rural-theft

We're here for the good of the country.

Comments: A Rainstorme son up next - we thought we'd better keep one for the spring! Nice up standing bull with Rainstorme's typical soft fleshing showing depth of body, balance and style. Terrific heifer mating figures with impressive calving ease and low birthweight. Together with an exceptionally efficient mature cow weight, big milk, massive scrotal and some muscle this generates another very good self-replacing index!

Comments: Nice thick set, sound type of bull with good muscling, some style and balance. Turihaua Jupiter has been breeding very well. The all-important days-to-calving figure is short which reflects maternal fertility and with a nice balance of figures drives that impressive index. Goes back to the \$100,000 Rangatira 13-38 on the dam side.

Comments: The only Q178 in this catalogue - anyone who follows our cattle will have seen how well he is breeding! A very deep, thick, square bull with a top back end. He has a low birthweight suitable for heifers with short days to calving, big fats, and some IMF as well! Another bull going back to M564 and the great G1000 cow. Dam R810 was transferred in the 2024 female sale, while grand-dam H274 bred top sale bulls to Flagstaff Station and Alan Oldham, as well as being the grand-dam of Q223, transferred to Riverlands J Angus where he has really clicked well!

Comments: Another compact, easy fleshing bull with powerful head and bone. R650 was a son of the great Rangatira 13-38 and he goes back to Braveheart on the dam side. He has those crucial easy-doing fats with some IMF as well so the progeny should prime up well. This bull also has a maternal half-brother in the sale, this time at lot 46, and grand dam bred a top bull sold at lot 7 to Island Bay in the June 2025 sale.

Comments: Real power and strength to start this catalogue. Sire T191 was sold at lot 4 in the 2024 Bull Sale to Ratanui Angus and was the standout bull of his year. Dam S124 is a top performing young cow with her first calf as a two-year-old U179 having the best back end in our 2025 bull sale and selling to Stu Millar at Peak Hill Station. V349 shows all the depth, thickness, and strength we would expect with powerful head and bone. Terrific topline, exceptional easy doing fats – in the top 1% of the breed – and fertility traits which are right up there too. Out of a cow by P700 so plenty of IMF coming through too. He will develop into a top sire suitable for both cows and heifers.

Comments: First of the Quartz Q250 sons which are a real feature of the catalogue this year. Quartz is a grandson of our record-breaking cow G1000 who was sold to Ballanee Angus Australia for \$16,050. Dam M667 is breeding well: her 2023 born son U413 was used as a yearling in the stud and appears at lot 28 in the R2 catalogue. She features an outcross pedigree going back to KayJay Freedom and Braveheart. V265 has moderate birthweight, strong growth, impressive fertility, very easy doing rib and rump fats. A nicely balanced bull that can be used over cows or heifers.

Comments: The first of this year's line-up of Rainstorme sons, showing all the incredible heifer mating traits we expect from this bloodline. Rainstorme now has over 300 progeny in NZ and Australia and is a trait leader for calving ease, scrotal size and milk. V266 has a wonderful clean shoulder with incredible calving ease and low birth weight. He ranks in the top 2% of the breed for these traits as well as his milk and short days to calving figures, so it is no surprise his SRI index also ranks in the top 2%. Moderate cow size, terrific milk and those exceptional easy doing fats give a very good maternal package. Goes back to Crump on the dam side which has proven as good a cross as we'd hoped. Lovely style and outlook and a top heifer mating option!

Comments: Another classic Rainstorme son, this time out of a Meat Machine daughter who is breeding well, with a daughter sold to KayJay Angus in our 2024 female sale. The same industry-leading calving ease and low birthweight, with moderate cow size and a terrific milk figure. V279 has those easy doing rib and rump fats we look for in the hill-country. A clean shouldered, stylish, and well-balanced young sire who is a great heifer mating choice.

Comments: Very solid chunky bull here by S160, and out of a 2yr heifer by Quartz Q250. Good calving ease, super low birthweight, exceptionally efficient cow weight and those rib and rump fats right at the top of the job. Deep, thick, gutsy bull with a wonderful hindquarter, some real depth and thickness, and super heifer mating figures

Comments: A son of the well-known Kayjay Meatpack, also used in our AI programme. Out of a top cow who bred Q118, a bull used in the stud and sold to Rocky Point Station at \$16,000; another top son to Greg Hand at \$9,500; and a top daughter transferred to KayJay angus at \$3,500. Meatpack has left them thick and strong and V158 is no exception. Good low birthweight, plenty of muscle, good strong fats, and the bonus of some IMF. Another bull that will develop into a mighty adult sire suitable for both cows and heifers.

The award-winning [yourbid](#) online selling platform was developed by the Giddings Family for their 2020 Angus Female Sale which was held during the first Covid Lockdown.

The system was further developed to incorporate on-farm and online bidding, and has been used successfully for 16 further sales at Meadowslea.

It has also been use to run a number of sheep and cattle sales for other studs both in NZ and the UK.

For all enquiries to use [yourbid](#) please contact george@yourbid.org

The development of the “Meadowslea Hill Country Type”

has been the result of 25 years of selecting animals that perform the best in our hill country environment. Cows that can winter easily on the hill without supplements, stay in good order, calve easily and get back in calf early every year for 10 years has been the focus of our breeding programme.

Ultra-sound scanning has confirmed to us that these easy doing cattle have higher levels of Rib and Rump fat. Science has now recognised that these higher fat levels result in heifers getting in calf earlier with higher conception rates. These higher fat levels also result in increased fertility in the whole herd with earlier rebreeding and less dry cows.

These great positive fat EBV's in the Meadowslea herd have come about simply by selecting animals that suit the Hill Country environment.

Carcase Rib Fat (mm)

- Meadowslea herd
- Australasian herd average

Graph showing improvement in fat EBVs at Meadowslea while running the herd on hill country, compared with Australasian average. From TransTasman Angus Cattle Evaluation, April 2022.

The average rib fat EBVs of the bulls in this catalogue ranks in the top 25% of the breed in NZ.

Meadowslea Proven Herd Sires

Meadowslea F540

Trait leader for short gestation and milk, with a days to calving figure in the top 5% of the breed. He ranks in the top 10% for rib fat, rump fat, and IMF. He was ranked 3rd for short gestation in the BLNZ Diary Beef Progeny Test in in 2018. His progeny also performed very strongly in the BLNZ Beef Progeny Test cohort 2 -for both growth and carcass traits. He is no longer with us but shows up in the pedigrees of most of the bulls in this catalogue.

Turihaua Crump E5

Trait leader for the all important Days to Calving at an incredible -10.1 days, as proven with over 500 recorded progeny across Australia and NZ. His daughters and grand-daughters are among the best females we have ever had. He has low birthweight, massive fat EBVs, and good IMF giving a self-replacing index in the top 10% of the breed. His progeny crossed with F540 have become legendary, and the cross with Rainstorme might be even better!

- Breed Trait Leaders for Maternal and Fertility Traits

Meadowslea Meat Machine G914

Exceptional thickness and fertility traits. He has terrific calving ease and low birthweight in the best 10% of the breed making his descendants ideal for mating heifers or dairy cows. His days to calving is strong reflecting fertility, fats are off the scale, and the all important self-replacing index in the top 5% of the breed! His son R818 was sold to Jade Park Angus, Australia, and will have a big impact on the 2025 winter catalogue.

Meadowslea P700

A product of the great F540 x Crump cross, this bull has emerged as a trait leader for IMF with an incredible EBV of +5.0 – ranking him in the top echelon anywhere! Him and his sons have ideal heifer mating figures with strong calving ease and low birthweight. His scrotal size EBV is right up there reflecting early maturity and his rib fat is also in the top 1%! He has some outstanding yearling sons on offer.

73%	79%	46%	69%	69%	69%	70%	62%	73%

Comments: A brick of a bull to start this next pen with a very strong pedigree. By R646 and out of a Lazarus cow. Super heifer mating figures with very low birthweight and very good calving ease in the very highest percentile of the breed, with ample growth too. Lovely hindquarter and well-balanced bull - worthy of a good look.

Purchaser:	Price: \$

73%	79%	47%	69%	69%	69%	70%	62%	73%

Comments: A son of P700, out of a very good cow by M452 going back to the \$100,000 Rangatira 13-38. She produced a cracking yearling sold at lot 30 in last year's sale to Mark Nicholson. Low birthweight once again with calving ease, very good muscle, plenty of fat and the IMF we always get from P700. Great heifer option here too.

Purchaser:	Price: \$

Comments: A Rainstorme son here, going back to R572, our 2022 Lot 1 bull sold to Red Oak stud at \$20,000. Another nice low birthweight option with plenty of calving ease, followed by good strong growth and massive EMA. Good strong fats as well. A typical Rainstorme son with a great pullup. Worth checking closely with a double up of Reality, and Crump also in the pedigree. Great data set across the page!

71%	77%	46%	68%	67%	68%	69%	61%	72%

Comments: Sired by T172, our top price bull in 2024 sold to Glen R Angus, and out of an F540 cow. Top heifer mating figures again with short gestation and very sharp fertility with one of the shortest days to calving numbers around. Top muscle with massive fats. All this data means he gets an index at the very top of the breed.

Comments: The first son catalogued by Sudeley Bjorn. Strong pedigree here with grandam R914 sold to Jade Park Angus in Australia. Another bull with great heifer mating figures with low birthweight. Big easy doing fats and real strength in the IMF department mean there will be plenty of options for his progeny. An upstanding, clean shouldered bull worth a good look.

BETTER BALANCED BEEF

BRED FOR BALANCE

Strong maternal influence combined with quality carcase attributes & superior genetic traits.

FARMED FOR BALANCE

All round performer – from hill country through to intensive finishing systems.

RECORDED FOR BALANCE

Performance Recorded specific to NZ farming conditions & commercial market focused selection indexes available through nProve.

CONSUMED FOR BALANCE

Exceeds consumer demands.

NOTES

FMG Premier Bull Sale Insurance Form

What is FMG Premier Bull Insurance?

On receiving a completed FMG Premier Bull Sale Insurance form, FMG provides its existing FMG clients with an active policy 14 days free insurance for bulls purchased up to \$50,000. For bulls purchased over \$50,000, please contact an FMG representative.

What is the length of cover?

Your specified bull(s) will be insured for 14 days once you have fully completed this form and it's received by an FMG representative. If you would like a longer period of cover, simply tick the Cover extension box below to extend your Premier Bull Insurance to 12 months. The specified bull(s) is then insured for the next 12 months at **7.6%** of the purchase price. FMG will invoice you for this additional cover.

What are the benefits?

✓ <i>Infertility</i>	Cover if your specified bull has to be euthanised due to permanent infertility caused by certain accidents, disease, injury, or illness.
✓ <i>Theft or death</i>	Cover for your specified bull for theft or death caused by certain accidents, disease, injury, or illness (including while in transit anywhere in New Zealand).
✓ <i>Vet costs</i>	Cover up to \$500 for treatment of your specified bull to prevent death.

What will FMG pay?

FMG will pay the fair market value of your specified bull, less any amount you receive for the sale of the carcass, up to the amount shown on the insurance certificate.
